1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

2. In the second part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

3. The third part of the paper is devoted to a detailed analysis of the experimental results obtained in the study of the Zeeman effect in the spectrum of the hydrogen atom.

4. In the fourth part, we shall discuss the question of the influence of the external electric field on the energy levels of the atom.

5. The fifth part of the paper is devoted to a detailed analysis of the experimental results obtained in the study of the Stark effect in the spectrum of the hydrogen atom.
